---

EXPERIENCE

ELRO Corporation | IT Intern   **October 2023 – May 2024**

- Maintain the Magento components used on ipanemaphilippines.com frontend across all products.
- Mentored by the IT Head, gained expertise in configuring the company's product website and managing sales. Collaborated with fellow interns to develop a Hotel Booking Website.
- Acquired expertise in configuring computer devices for new employees and maintaining high-quality device performance for users.
- Collaborate with cross-functional teams, including developers, designers, and product managers, to develop and support best practices in web accessibility

---

EDUCATION

New Era University | Bachelor of Science in Information Technology   **June 2019 – July 2024**

- SITES Officer
- NEUTech Basic Training on Cybersecurity – CTF Competition
- Capstone Project – Kambal Pizza's Online Food Ordering System

---

PROJECTS

Portfolio	**Pokédex**	**Random Quote Machine**
Developed a web portfolio to showcase my skills, projects, and provide information about me, emphasizing a clean, responsive design and user-friendly navigation.	Created a dynamic Pokedex application, enabling users to search for Pokémon by name or ID and view their stats, abilities, and characteristics through the PokéAPI.	Built a Random Quote Machine, allowing users to generate and view random quotes with a visually engaging interface and changeable background colors for an immersive experience.

CERTIFICATIONS

- Front-End Development Libraries
- Zuitt Bootcamp Web App with React.JS and AWS
- Basic Training on Cybersecurity
- Oracle Autonomous Database Cloud
